## Exam 1z0-418

### Oracle Fusion Global Human Resources 2014 Essentials

Version: 5.0

[ Total Questions: 129 ]

**Question No : 1**

What Oracle Fusion Middleware features maximize the security of Fusion Applications?

- A. Improved productivity, manageability, and responsibility
- B. Improved extensibility, responsibility, and functionality
- C. Improved productivity, adaptability, and manageability
- D. Improved sustainability, adaptability, and extensibility
- E. Improved adaptability, extensibility, and functionality

**Answer: B**

**Explanation:** Extensibility: Be able to customize and extend Oracle Fusion CRM applications.

Responsibility through Roles.

Functionality: Function security.

Reference: Oracle Fusion Applications Security Guide

**Question No : 2**

You want to display a new field of sensitive data to display salary information. Which security policy controls access to the field displayed by the component?

- A. Function Security Policy
- B. ADF Security expression language
- C. Data Security Polity
- D. Oracle Platform Security Policy

**Answer: C**

**Explanation:** Functions and data are inaccessible to users unless they are provisioned with the roles necessary to gain access. Function security provides users with access to pages in application users interfaces and actions that can be performed there. Data security allows users to see data in those pages. Some data is not secured, in which case access to a user interface page gives unrestricted access to the data that is accessible from that page.

**Question No : 4**

As a line manager you have 10 direct reports. You have certain work scheduled that needs to be completed in the coming week. You have identified three of your reports to complete the task and you would like to check for their availability in the coming week.

Which report will give you a snapshot of their availability?

- A. My Organization
- B. Leave Availability
- C. Worker Availability
- D. Predicted Worker Performance and Attrition

**Answer: C**

**Explanation:** Worker Availability: How It Is Determined

The availability of a worker during a selected time period is automatically determined using:

Absence entries during that period

The work schedule that the worker presently follows

Calendar events

**Question No : 5**

Identify the four business subprocess offered under the workforce Deployment category of the Oracle Fusion HCM family.

- A. Manage Absence
- B. Manage Global Workforce
- C. Manage Worker Performance
- D. Manage Social Networking
- E. Manage Workforce Profiles
- F. Manage Workforce Life Cycle

**Answer: A,D,E,F**

**Explanation:** A: The Manage Absences business process is performed by human resource (HR)

specialists and employees, or their managers, to provide accurate records of absences for reporting and payroll calculations.

D: You can create and join networks of people in your enterprise to collaborate, share knowledge, and achieve goals. Use the examples in this topic to understand how you can benefit from a social network.

E: The Manage Workforce Records business process enables access to the worker directory and management of worker document records and checklists.

F: The Manage Workforce Lifecycle business process covers all stages of a worker's association with the enterprise, from creation of the person record through termination of work relationships.

**Question No : 6**

You are working on Implementing Fusion Human Capital Management. Some of the work structures and need to be configured manually. Enterprise, Business Units, Legal Entities,

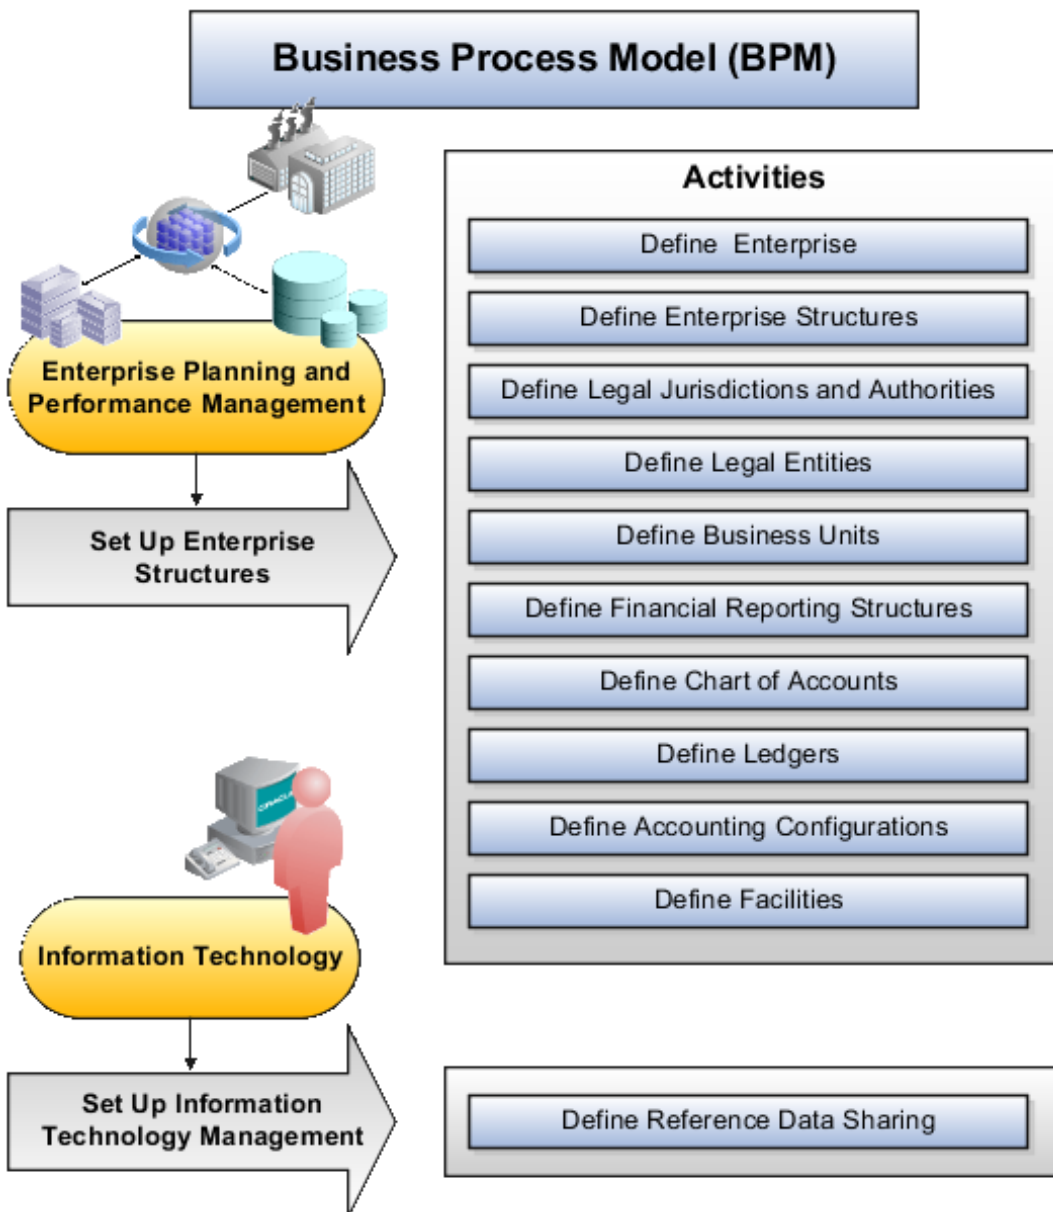

Reference Sets, and Legislative data Group will be part of this manual setup.

Identify the correct sequence of steps to be followed for this setup.

- A. Create Enterprise > Define Business Units > Define Legal Entities > Define Reference Sets > Define Legislative Data Group.
- B. Create Enterprise > Define Legal Entities > Define Business Units > Define Reference Sets > Define Legislative Data Group.
- C. Create Enterprise > Define Business Units > Define Legislative Data Group > Define Legal Entities > Define reference Sets.
- D. Create Enterprise > Define Legal Entities > Define Reference Sets > Define Business Units > Define Legislative Data Group

**Answer: B**

**Explanation:** The following figure and chart describes the Business Process Model structures and activities.

This diagram lists the

BPM activities: Define Enterprise, Define Enterprise Structures, Define Legal Jurisdictions and Authorities, Define Legal Entity, Define Business Units, Define Financial Reporting Structures, Define Chart of Accounts, Define Ledgers, Define Accounting Configurations, Define Facilitates, and Define Reference Data Sharing.

### Question No : 7

Identify the two applicable model profiles for workforce structures.

- A. Jobs
- B. Individual worker
- C. Position
- D. Department
- E. Location
- F. Business unit

**Answer: A,C**

**Explanation:** Model profiles identify the competencies, qualifications, and experience required for a workforce structure, such as a job or position.

### Question No : 8

What are the three benefits of Oracle Fusion Applications using a Lightweight Directory Access Protocol (LDAP) system?

- A. enforces the principle of least privilege
- B. segregates duties to be more rigorously enforced
- C. allows principles of assured revocation to be more rigorously enforced
- D. extends the database concept of a grant to applications
- E. uniquely identifies a single person

**Answer: A,B,C**

**Explanation:** Oracle Fusion Applications applies the following standard security principles:

\* Least privilege (A)

Oracle Fusion Applications roles carry only required privileges. Application roles define duties that entitle access to only the functions and data necessary for performing the defined tasks of that duty.

\* Segregation of duties (B)

Oracle Fusion Applications checks duty roles for segregation of duties policy violations measured against content and the risks defined in the Oracle Application Access Controls Governor (AACG) and against content according to best available security guidelines. User and role provisioning respects the segregation of duties policies.

\* Containment and no write down

\* Transparency

\* Assured revocation (C)

Revoking one security policy revokes all implementations of that policy across all tools in production.

\* Defense in depth

E: The process Retrieve Latest LDAP Changes sends to Oracle Fusion HCM among other items:

### Question No : 9

There are two distinct lists of grades that should be available in two separate business units of your organization. During testing, you notice that the lists of grades between the two business units are not per the requirement.

Indicate what has gone wrong in the setup.

- A. The grade sets of the two business units have been interchanged
- B. The grade rate of the two business units have been interchanged.
- C. Incorrect grade ladder is attached to the two business units.
- D. All grades are available at enterprise level only.

**Answer: A**

**Explanation:** Grades and Sets

Sets enable you to share grades that are common across business units in your enterprise. You can assign grades to either a specific set or to the common set to each grade. If you assign the grade to the common set, then the grade is available for use in all business units.

Note:

\* grade rate

Used to define pay values for grades in a legislative data group.

### Question No : 10

Your company wants to track the previous employment information for workers, including employer name, dates of employment, and job description. What should you do?

- A. Create a new content type and content item.
- B. Use seeded content type and new content item.
- C. Create a new content type but seeded content item.
- D. Create free-form content type and new content item.
- E. Create free form content type without content item.

**Answer: E**

**Explanation:** Free-form content types enable you to capture information in a profile that you do not need to store in the content library. For example, you can set up a free-form content type to store information about the previous employment information for your workers.

A free-form content type contains only a code, name, and a description, and does not have

any properties defined for it until you add it to a profile type. Free-form content types do not include any content items.

**Question No : 11**

You have to compare two jobs. What are the three data sets on which the comparison can be based?

- A. Competencies
- B. Salary
- C. Assignment
- D. Development plans
- E. Potential
- F. Contracts

**Answer: A,B,C**

**Explanation:** A: Using the comparison feature, you can compare profiles to determine next career moves or training needs for workers, and identify suitable candidates for jobs. For example, if John is looking for his next career move, he can compare his profile to that of a job to determine whether his competency ratings match the targeted competency ratings in a job profile.

**Question No : 12**

As an HR Administrator, you search for a worker's record and want to update certain values on the assignment level. Your legal employer has not allowed for an override at the assignment level. However, as an HR Administrator, you are aware that certain values are editable.

Identify two options that contain these editable values on the assignment.

- A. Assignment Name, Assignment Number
- B. Job, Location

- C. Assignment Category, Person Type
- D. Assignment Status, Assignment Projected End Date
- E. Assignment Number, Job

**Answer: A,C**

**Explanation:** You can edit the following values on the assignment regardless of whether override at the assignment level is allowed:

- \* Assignment name
- \* Assignment number
- \* Assignment status
- \* Assignment projected end date

Reference; Oracle Fusion Applications Workforce Deployment, Human Resources Guide, Editing Inherited Values on Assignments

**Question No : 13**

Your customer is making regular updates to HR data and wants to keep a history of the changes made. While updating employee records, which two fields are date effective?

- A. Person number
- B. First Name
- C. Phone number
- D. Date of Birth
- E. National identification Number
- F. Assignment details

**Answer: C,F**

**Explanation:** Phone number and assignment details might change over time.

The following objects related to person records are date-effective: contact relationships, disabilities, gender, marital status, person name, person addresses, visas, and work permits.

Note 1: Many Human Capital Management (HCM) objects are date-effective. The list of HCM date-effective objects includes but is not limited to: assignments, benefits plans and plan types, element definitions, eligibility profiles, employment terms, grades, grade rates, grade ladders, jobs, job families, locations, organizations,
