- E. Template Version

Answer: A,C,D

Question No : 16

While configuring the Assignment Manager, you activate and create assignment mappings involving Geography ID, Industry, and Customer Size. After an internal review, your company decides to no longer base decisions on industry. Your supervisor asks a coworker to remove any industry consideration from Assignment Manager. Your coworker does this by navigating to Industry and selecting the Inactive check box, but forgets to modify the existing mappings that already use Industry.

Identify the expected system behavior based on this scenario.

- A. The existing assignment mapping that uses Industry would continue to function; however no new assignment mapping could use Industry.
- B. The existing assignment mapping that uses Industry would continue to function, but the concept of Industry would be automatically removed. The rule would continue on all other criteria.
- C. Any assignment mapping that uses Industry would be automatically deleted.
- D. Any time the existing mapping is used, Fusion will automatically create a resolution request.
- E. This can't be done, assignment objects can't be set to inactive if there is a mapping defined using the object.

Answer: E

Question No : 17
