- C. Access only the items in their assigned Location
- D. Access only the items in their assigned Job Field

Answer: B

Question No : 2

Your client would like ensure that candidates have the ability to search for jobs in a variety of ways. They would also like to provide visibility into jobs that candidates are a match for based on data that has been collected by the system. How would you ensure that this functionality is available?

- A. Activate the Setting Display Personal Jobs List on the Career Portal Page Settings.
- B. Activate the Setting Display Personal jobs List on the Career Section Properties.
- C. Activate My Jobs Page on the Career Section Portal Page settings.
- D. Activate My Jobs Page on the Personal Jobs List on the Career Section Properties.

Answer: D

Explanation: * If the candidate's submission has expired and the requisition is still posted, the Modify link is replaced with the Reapply link on the candidate's My Jobs page.

* candidates are entering their profile in the career section.

Question No : 3

When configuring a Candidate Selection Workflow (CSW) what is an advantage if it is associating it with Foundation Elements?

- A. The system will automatically present the CSW for all requisitions.
- B. The system will automatically select the CSW that provides the highest degree of compatibility based on the Organization-Location-Job Field of the requisition.
- C. The system will automatically select the CSW that provides the highest degree of

compatibility based on the user's User Group Organization-location-Job Field association.
D. The system will automatically select the CSW that provides the highest degree of compatibility based on the staffing type of the requisition.

Answer: B

Question No : 4

Your client would like to create a simplified way for hiring managers to progress candidates in the workflow with a single click avoiding the need to open each candidate record to complete the progression in the More Actions menu. What recommendation would you make to your client?

- A.** Next Action column must be added in the hiring manager's candidate list format.
- B.** Progression Status column must be added in the hiring manager's candidate list format.
- C.** Disable the Setting Threshold CSW Step - Prevent advancing.
- D.** Restricted confidentiality level setting on the Hiring Manager Review step must be removed.

Answer: A

Explanation: To be able to change the step/status of a candidate with one click, the Next Action column must be added in a candidate list format.

Question No : 5

When setting up prescreening on a requisition, which two parameters can only be applied to Competencies versus Questions?

- A.** Required versus Asset
- B.** Weight
- C.** Minimum Proficiency
- D.** Minimum Experience

Answer: C,D

Explanation: For each question and competency contained in a requisition, users can define if the question or competency is required or an asset, the weight (optional), the minimum proficiency (competencies

only) and the minimum experience (competencies only).

Question No : 6

What is an important consideration when modifying a permission for a group of users?

- A. If the permissions associated with a user type are modified, the changes affect all users who have been assigned the user type.
- B. It is important to duplicate that user type and reassign it to all users once your modifications are saved.
- C. It is Important to maintain a single user type across the organization for all users.
- D. Unless the “expand all” function is selected, the Functional Domain may not be visible when looking for the permission that you want to modify.

Answer: A

Explanation: A user type is a user profile composed of a set of role-based permissions.

Modifying the Permissions of a User Type

Prerequisite

It is recommended to change the person's user type.

Configuration > [SmartOrg] Administration > User Types

Steps
