

Cisco 642-262

Implementing Cisco Unity Connection(UIC)

Version: 5.0

Topic 1, Main 3**QUESTION NO: 1**

Which two statements most accurately describe the objects and methods that can be processed by Cisco Unified Communications Manager BAT? (Choose two.)

- A. Contacts can have incoming fields overwritten by the appropriate contact template
- B. Users with and without voice mail are imported as is, with no changes
- C. Users with mailboxes can have incoming fields overwritten by the specified template
- D. Contacts are imported without any changes
- E. Users without mailboxes can have incoming fields overwritten by the specified template
- F. Imported system call handlers can have incoming fields overwritten by the selected call handler template

Answer: B,D

Explanation:

QUESTION NO: 2

Which digital network join method requires the administrator to exchange credentials between all digitally networked Cisco Unity Connection servers or server clusters?

- A. Database replication
- B. SMTP replication
- C. Manual
- D. Automatic

Answer: C

Explanation:

QUESTION NO: 3

Which protocol is used to exchange information between VPIM networked voice-mail systems?

- A. SMTP
- B. SNMP
- C. SIP
- D. SCCP

Answer: A

Explanation:

QUESTION NO: 4

What is the maximum number of voice-mail subscribers that can be deployed in a Cisco Unity connection digitally networked solution?

- A. 10,000
- B. 35,000
- C. 75,000
- D. 50,000

Answer: D

Explanation:

QUESTION NO: 5

Which two key strokes or sequences are used to navigate in the Cisco Unity connection installation wizard?

- A. Ctrl-z
- B. Alt-tab
- C. Esc-tab
- D. Space

Answer: D

Explanation:

QUESTION NO: 6

Which item on the Phone System Integration page reduces the port requirements for voice mail?

- A. Use Same Port for Enabling and Disabling MWI's
- B. Send message counts
- C. Default TRAP Switch
- D. Force all MWI's off for this Phone System

Answer: A

Explanation:

QUESTION NO: 7

Which three items are used to generate RSA keys during installation? (Choose three.)

- A. Administrator username
- B. Organization
- C. Hostname
- D. Location
- E. State
- F. IP address

Answer: B,D,E

Explanation:

QUESTION NO: 8

Which three methods or protocols are used to provide integrated messaging services for voice-mail clients? (Choose three.)

- A. Web Services
- B. IMAP
- C. SMTP
- D. WebDAV
- E. SNMP
- F. SCCP

Answer: A,B,D

Explanation:

QUESTION NO: 9

Which main navigation section provides Cisco Unity connection with monitoring and troubleshooting services?

- A. Cisco Unity Connection Administration
- B. Disaster Recovery System

- C. Cisco Unified Serviceability
- D. Cisco Unity Connection serviceability

Answer: D

Explanation:

QUESTION NO: 10

Where is COBRAS intermediate data stored?

- A. Compressed file images
- B. Informix database
- C. Microsoft Access database
- D. CSV file

Answer: C

Explanation:

QUESTION NO: 11

Which statement best describes the difference between DRS and COBRAS?

- A. DRS can selectively restore individual voice-mail boxes, while COBRAS cannot restore them
- B. DRS maintains a public distribution list membership, while COBRAS does not maintain such a membership
- C. DRS restores are based strictly on a single instant of time, while COBRAS can merge objects from earlier backups
- D. DRS creates new subscribers or binds existing subscribers to existing Active Directory users, while COBRAS requires a full Active Directory User resync

Answer: C

Explanation:

QUESTION NO: 12

Which choice most accurately describes the licensing components for Cisco Unity Connection?

- A. Port listening for phone system integration, seat licensing for voice mail, integrated messaging

services and VPIM licensing

B. Port licensing for phone system integration

C. End-user licensing based on the number of users for voice mail, IMAP access to voice mail, voice recognition, Cisco Unity Inbox and email TTS

D. Port licensing and VPIM licensing

Answer: A

Explanation:

QUESTION NO: 13

Which two types of modifications can be made by the Cisco Unity Connection Bulk Edition utility? (Choose two.)

A. Call handler settings based on search criteria

B. Change web passwords for all users

C. Groups of users based on search criteria

D. Global settings for all users

Answer: A,C

Explanation:

QUESTION NO: 14

Which three actions are initiated by call handlers? (Choose three.)

A. Retrieve voice calls

B. Change greetings

C. Take messages

D. Answer calls

E. Route calls

F. Send voice mail

Answer: C,D,E

Explanation:

QUESTION NO: 15

Which two Cisco Unity Connection components use default schedules for processing incoming

calls? (Choose two.)

- A. System call handler
- B. Interview handler
- C. Call routing rules

Answer: A,C

Explanation:

QUESTION NO: 16

Which URL is used to retrieve the COBRAS applications?

- A. www.cisco.com/go/ciscounitytools
- B. www.unitytools.com
- C. www.cisco.com/go/unity/tools
- D. www.ciscounitytools.com

Answer: D

Explanation:

QUESTION NO: 17

Which two of these items are Cisco Unity Connection Components assigned to partitions?
(Choose two.)

- A. Call routing rules
- B. Users with mailboxes
- C. Phone System integrations
- D. System distribution lists

Answer: B,D

Explanation:

QUESTION NO: 18

Which main navigation section provides Cisco Unity connection with monitoring and troubleshooting services?

- A. Cisco Unified Serviceability
- B. Cisco Unity Connection Administration
- C. Disaster Recovery System
- D. Cisco Unity Connection serviceability

Answer: D

Explanation:

QUESTION NO: 19

Which product creates a script that can be used with a USB drive for hands-free installation?

- A. Answer File Generator
- B. Cisco Unified Communications Answer File Generator
- C. Cisco Unity Connection Answer file Generator
- D. Cisco Hands-Free Answer File Generator

Answer: B

Explanation:

QUESTION NO: 20

Which action most accurately describes the primary function of COBRAS?

- A. Migration to Cisco Unity connection
- B. Restoring individual user voice-mail messages
- C. Database object review
- D. Backup and restore

Answer: A

Explanation:

QUESTION NO: 21

Which two methods can be used to view the log files for a Cisco Unity Connection installation?
(Choose two.)

- A. CLI: file view install <filename>

- B. CLI: show install log
- C. CLI: cat /var/log/install/<filename>
- D. RTMT: Connect install logs

Answer: A,D

Explanation:

QUESTION NO: 22

Which two methods can be used to create private distribution lists? (Choose Two.)

- A. Adding distribute list role to user
- B. Created by administrator
- C. Using TUI
- D. Using PCA

Answer: C,D

Explanation:

QUESTION NO: 23

Which Java 2 Platform, Standard Edition version can be used for all platforms and browsers?

- A. 0.9.5
- B. 1.5.0_3
- C. 1.4.2 or higher
- D. 1.5.0_6

Answer: D

Explanation:

QUESTION NO: 24

What are the minimum system requirements to install Cisco Unity Connection?

- A. 1-GHz processor, 1-GB RAM, 80-GB hard disk
- B. 2-GHz processor, 2-GB RAM, 160-GB hard disk
- C. 3-GHz processor, 4-GB RAM, 160-GB hard disk

D. 2-GHz processor, 2-GB RAM, 80-GB hard disk

Answer: D

Explanation:

QUESTION NO: 25

What is the maximum number of supported ports for a single-server implementation using Platform Overlay 2?

- A. 48
- B. 16
- C. 144
- D. 96

Answer: D

Explanation:

QUESTION NO: 26

Which two of these methods can be used to integrate Cisco Unity Connection to the Cisco Unified Communication Manager? (Choose two.)

- A. SIP
- B. PIMG
- C. TIMG
- D. SCCP

Answer: A,D

Explanation:

QUESTION NO: 27

Which Cisco Unity Connection call handling element provides subscriber information for incoming callers?

- A. Interview handlers
- B. System call handlers
