Manager
Practice Test
Version 1.1**

QUESTION NO: 1

A customer who is interested in savings in the areas of toll bypass, audio conferencing, and unified messaging is interested in realizing which of these benefits?

- A. cultural benefits
- B. voice routing transparency
- C. real estate benefits
- D. reduced call costs

Answer: D

QUESTION NO: 2

Based on the scenario, what is the primary need of the telecommunications manager?

Account manager: Are there aspects of your current communications infrastructure that you would like to improve?

Telecommunications manager: I am looking to monitor network performance in near real time and perform network trending for a more proactive management approach.

- A. reporting capability
- B. ability to adapt to unplanned changes
- C. cost justification
- D. reliability

Answer: A

QUESTION NO: 3

Read the customer objection and choose the best response.

Chief financial officer: Convergence sounds good in theory. What exactly does it give me, though? I want to talk in terms of business justification.

- A. Convergence can empower a business to reduce infrastructure, staffing, and facilities costs to produce a quick ROI.
- B. Convergence is just one of several tangible benefits that you realize in terms of cost savings in the near term.
- C. Convergence will enable your organization to run highly customized reports across multiple systems.

D. Convergence is the direction in which the market is going; it makes more sense to do it sooner rather than later.

Answer: A

QUESTION NO: 4
