C. Disable the User Account Control: Only elevate executables that are signed and validated option.
D. Configure the User Account Control: Behavior of the elevation prompt for administrators in Admin Approval Mode setting to the Prompt for consent option.

Answer: B

QUESTION NO: 17

Your computer runs Microsoft Windows Vista Home Basic edition.

When you attempt to upgrade your computer to Microsoft Windows Vista Ultimate edition by booting from the DVD-ROM, you receive the following warning message:

"The partition you selected might contain files from a previous Microsoft Windows installation. If it does, these files and folders will be moved to a folder named Microsoft Windows.old. You will be able to access the information in Microsoft Windows.old, but you will not be able to use your previous version of Microsoft Windows."

You need to complete the upgrade.

What should you do?

A. Boot into safe mode. Launch the setup.exe application from the Windows Vista Ultimate edition DVD-ROM.
B. Boot from the Windows Vista Ultimate edition DVD-ROM and click the command prompt option. Use the diskpart utility to create a new primary partition for the Windows Vista Ultimate edition installation.
C. Log on to the Windows Vista Home Basic edition installation. Launch the setup.exe application from the Windows Vista Ultimate edition DVD-ROM, and then click the Upgrade option.
D. Log on to the Windows Vista Home Basic edition installation. Launch the setup.exe application from the Windows Vista Ultimate edition DVD-ROM, and then click the Custom (Advanced) option.

Answer: C

QUESTION NO: 18

You share your computer with other users. You install a new Microsoft Windows Internet Explorer add-on to view videos on the computer. You discover that this add-on conflicts with existing add-ons that other users frequently require. You need to ensure that you are able to view videos without affecting other users. What should you do?

A. Log on as an administrator and disable the new Windows Internet Explorer add-on.
B. Direct other users to log on and disable the new Windows Internet Explorer add-on.
C. Uninstall the new Windows Internet Explorer add-on.
D. Select the Turn off Automatic Website Checking option for the Phishing filter.

Answer: B
