## Exam C9060-511

### IBM Tivoli Storage Manager V7.1 Implementation

Version: 7.2

[ Total Questions: 70 ]

**Question No : 1**

Which parameter of an archive copy group sets a specific retention period that must be met before a file qualifies for expiration?

- A. retain last
- B. retain extra
- C. retain version
- D. version deleted

**Answer: B**

**Question No : 2**

What is the first step to isolate the problem if multiple clients' backups failed?

- A. Restart client nodes.
- B. Check client error log files.
- C. Check whether storage pools are available.
- D. Query the Tivoli Storage Manager server activity log.

**Answer: B,D**

**Question No : 3**

A Windows client node has this directory structure:

```
C:\proposals
C:\proposals\dir1
C:\proposals\dir1\file1.txt
C:\proposals\dir1\file2.txt
C:\proposals\dir2
C:\proposals\dir2\file3.txt
C:\proposals\dir2\file4.txt
C:\proposals\file5.txt
C:\proposals\file6.txt
```

The command `dsmc archive c:\proposals` is run on the client.

How many objects are archived to the Tivoli Storage Manager server by default?

- A. Nine: all directories and files.
- B. Ten: all directories and files, plus the c:\directory.
- C. Two: the directory c:\ and the directory c:\proposals.
- D. Three: the directory c:\proposals and the files file5.txt and file6.txt.

**Answer: C**

**Question No : 4**

Why would an IBM Tivoli Storage Manager (TSM) trace be run?

- A. To find a lost encryption key.
- B. To filter messages from the active log.
- C. To help troubleshoot at the request of Level 2 Support.
- D. To check the data path between the TSM client and server.

**Answer: D**

**Question No : 5**

Which two steps should be taken to determine a Windows client performance problem?

- A. Use auditlogging.
- B. Review eventlog entries.
- C. Set up a Tivoli Storage Manager server trace.
- D. Check for high idle wait, comm wait, or media wait values.
- E. Crosscheck the client options with recommendations from the Optimizing Performance document.

**Answer: B,C**

**Question No : 6**

What happens if the same version of the file is selected for archive twice?

- A. The archive job will fail.
- B. The file is archived twice.
- C. The oldest version of the file will be overwritten.
- D. The most recent version of the file will overwrite any previous versions.

**Answer: B**

**Question No : 7**

When installing the Backup-Archive client software, which additional component can be installed by choosing the Custom installation?

- A. the web client
- B. the client API files
- C. the administrative command line client
- D. the Backup-Archive client command line

**Answer: C**

**Question No : 8**

After the initial configuration of IBM Tivoli Storage Manager Operations Center, which two At Risk status settings can be changed?

- A. time since last node replication
- B. time since last copypool backup
- C. time since last spoke replication
- D. time since last application backup
- E. time since last virtual machine backup

**Answer: B,C**

**Question No : 9**

The IT department is requesting a disaster test of the Tivoli Storage Manager (TSM) server. The test is on a server set up without any graphical assistance. Which step is required for a successful TSM database restore?

- A. Update the server option file.
- B. Configure a DB2 API interface.
- C. Replace the volume history file.
- D. Generate a database backup copy.

**Answer: D**

**Question No : 10**

A customer is upgrading their environment from IBM Tivoli Storage Manager (TSM) V5.5 to TSM V7.1. Which three new skills are required for the existing storage administrator with system privileges?

- A. defining DB2 volumes
- B. defining database space
- C. defining active data pools
- D. managing recovery log volumes
- E. managing a database reorganization
- F. managing multiple stream database backups

**Answer: A,D,F**

**Question No : 11**

The IBM DB2 command runstats performs which function?

- A. It reorganizes the IBM Tivoli Storage Manager (TSM) database.
- B. It resets the TSM database table schema.
- C. It updates statistics on tables and indexes.
- D. It displays statistics on the database and indexes.

**Answer: C**
