Exam C9560-576

Fundamentals of Applying Tivoli Network and Service Assurance Solutions V1

Version: 6.0

[Total Questions: 64]

Question No : 1

Which three key players within the client organization should be contacted to provide information needed to create an AS-IS document, which documents details of the client's current network, tools, and workflow?

A. IT Manager
B. Sales Manager
C. Marketing Team
D. Client Project Manager
E. Network Vendor Support Team
F. Network Operations Center Staff

Answer: A,D,F

Question No : 2

How can an administrator restrict the users belonging to group SYSTEM to only see the reports that were assigned to them without the possibility to create, change, or run new reports?

A. Make sure that the tcrPortalExecute and tcrPortalWrite roles are not assigned to group SYSTEM in the Tivoli Integrated Portal Users and Groups tab.
B. Assign the tcrPortalOperator role to the group SYSTEM in the Tivoli Integrated Portal Users and Groups tab. In the Common Reporting Administrative pane under Capabilities, select the Set Properties of the Report Studio. Modify the Permissions by adding the group SYSTEM and selecting the Deny option for READ and EXECUTE.
C. Assign the tcrPortalOperator role to the group SYSTEM in the Tivoli Integrated Portal Users and Groups tab. The authorization to the reporting artifacts is performed in the Common Reporting Administrative pane under Security/Users. Groups and Roles. Add the Group SYSTEM as a member of the READER role. (Make sure that the Group Everyone has been removed from all roles.)
D. Remove the tcrPortalOperator role and add the tcrPortalRead to the group SYSTEM in the Tivoli Integrated Portal Users and Groups tab. The authorization to the reporting artifacts is performed in the Common Reporting Administrative pane under Security/Users. Groups and Roles. Add the group SYSTEM as member of the READER role. (Make sure that the Group Everyone has been removed from all roles.)

Answer: B

Question No : 3
