- A. data security and encryption
- B. global deduplication
- C. fast access to backup data
- D. central management

Answer: B

QUESTION NO: 6

Which feature does PureDisk enable by using a CIFS interface?

- A. direct access to backup data
- B. NetBackup integration
- C. data security and encryption
- D. central management

Answer: A

QUESTION NO: 7

By default, where does PureDisk provide for data security by encrypting the data?

- A. content router
- B. storage pool authority
- C. client
- D. metabase engine

Answer: C

QUESTION NO: 8

At which component level does PureDisk provide for bandwidth efficiency by deduplicating data?

- A. client

ST0-057

- B. storage pool authority
- C. content router
- D. metabase engine

Answer: A

QUESTION NO: 9

Which component must be installed within a PureDisk storage pool?

- A. workflow controller
- B. CIFS interface
- C. NetBackup export engine
- D. content router

Answer: D

QUESTION NO: 10

By default, a storage pool with a single metabase engine is limited to how many clients?

- A. 256
- B. 500
- C. 1000
- D. 2048

Answer: C

QUESTION NO: 11

How many terabytes of data in PureDisk 6.5 can be stored per content router in the storage pool?

- A. 4
- B. 8
- C. 12
- D. 16

Answer: B

QUESTION NO: 12

On which component in the PureDisk architecture does grouping clients with similar data improve deduplication?

ST0-057

- A. storage pool authority
- B. metabase server
- C. content router
- D. repository manager

Answer: A

QUESTION NO: 13

Which is an optional component that can be installed within a PureDisk storage pool?

- A. metabase engine
- B. content router
- C. NetBackup export engine
- D. controller

Answer: C

QUESTION NO: 14

Which two components can be added to increase the size of the PureDisk storage pool?
(Select two.)

- A. metabase engine
- B. content router
- C. client agents
- D. NetBackup export engine
- E. storage pool authority

Answer: AB

QUESTION NO: 15

Which service can be added to an existing storage pool to increase the amount of data stored in the environment?

- A. metabase engine
- B. content router
- C. metabase server
- D. repository manager
- E. workflow controller

Answer: B
